The Missing Links in Dental Implant Treatment

Course content

This two-day program brings 40 years of surgical experience in oral rehabilitation to Canada! Plan to attend this information-packed program to gain new perspectives in dental implant treatment.

At the completion of this course, participants will be able to understand:

- The philosophy and principles from the Lille School of Oral and Maxillofacial Implantology
- The ten fundamental principles for long-term success
- The importance of medical screening and the application of clinical science to implantology
- How to review bone classification for implant and reconstructive surgery
- How to review biomaterials and their biocompatibility
- Treatment planning for successful implantation and prosthetics in the esthetic zone
- Management of complications

Astra Tech is committed to new and innovative knowledge, however, some presentations may include controversial material. Sponsorship by Astra Tech does not necessarily imply endorsement of a particular philosophy, procedure or product.

Astra Tech is an ADA CERP Recognized Provider.

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

Astra Tech designates this activity for 12 (6 per session) continuing education credits.

CE credits	12 hours (6 per session)

Speakers

Dr. Domenic Belcastro completed his undergraduate degree in Biochemistry in 1982 and his DDS degree in 1986 from the University of Toronto. Dr. Belcastro has completed numerous continuing education programs including the Pankey Institute and is completing his second Master's degree with the Department of Oral and Maxillofacial Implant Surgery at Lille University Medical School in France. In addition to maintaining a private practice in Toronto, Dr. Belcastro has also lectured throughout the US and Canada on various topics and has authored several scientific articles.

Dr. Manual Chanavaz holds faculty positions in three US and two European universities. He is a fellow of the Royal College of Surgeons of England and the Faculty of Dental General Practitioners (UK). He is currently President of the European College of Research in Implantology and Biomaterials as well as Co-director of the International Federation of University Implant and Biomaterials Educators. Professor Chanavaz is past President of the ICOI. He has been a keynote speaker in over 180 international scientific meetings and course director in more than 23 countries.

The participation of this speaker has been made possible through support from Astra Tech Inc.
